Who we are

At CogoUniverse, we are on a mission to revolutionize global trade by tackling the \$3.4 trillion Trade Knowledge and Execution Gap that disproportionately impacts small and medium businesses. We are developing a new category — a Global Trade Platform — that empowers businesses to identify and connect with the right trade partners, optimize shipping and logistics costs, and improve cash flow and cash management.

Recognized as an Asia-Pacific High-Growth Company by the Financial Times and ranked among the Top 100 Indian Growth Champion Companies by the Economic Times, CogoUniverse is in hypergrowth mode. We're on track to reach \$1 billion in revenue by summer.

Your Role at CogoUniverse

- Build dynamic, user-friendly dashboards that present complex freight data in simple, actionable ways
- Write highly optimized SQL queries to extract and process large datasets efficiently
- Analyze patterns in pricing trends, customer margins, promo campaign effectiveness, and operational metrics
- Design dashboards that track how pricing strategies and promotions influence customer wins, margins, and revenue
- Collaborate with product managers, pricing strategists, leadership, sales, and growth teams
- Translate raw datasets into clear insights that directly impact pricing decisions
- Enable teams to make faster, smarter, data-backed business decisions

Qualifications Required

- Departments: Business Analytics, Statistics, Economics
- Skills Good to Have: SQL, Superset/Metabase, Excel proficiency
- Learnability: Eagerness to track business KPIs and convert trends into actionable insights Goal: Show how promos, pricing, and external factors impact profit and sales wins.

Fuel your Future with CogoUniverse

- Transform large freight datasets into actionable business insights
- Build pricing and promo dashboards used across multiple teams
- Gain exposure to how real-world pricing impacts commercial success
- Learn to optimize data queries and improve BI performance at scale
- Master the art of connecting financial metrics with operational and promotional activities
- Get visibility into how data storytelling drives real business outcomes
