Who we are

At CogoUniverse, we are on a mission to revolutionize global trade by tackling the \$3.4 trillion Trade Knowledge and Execution Gap that disproportionately impacts small and medium businesses. We are developing a new category — a Global Trade Platform — that empowers businesses to identify and connect with the right trade partners, optimize shipping and logistics costs, and improve cash flow and cash management.

Recognized as an Asia-Pacific High-Growth Company by the Financial Times and ranked among the Top 100 Indian Growth Champion Companies by the Economic Times, CogoUniverse is in hypergrowth mode. We're on track to reach \$1 billion in revenue by summer.

Your Role at CogoUniverse

- Build and deploy React-based conversational UI (Next.js or similar)
- Integrate OpenAI GPT-4 APIs with Function Calling
- Connect frontend with backend API for dynamic pricing
- Deploy scalable backend on Vercel/AWS
- Optimize for responsiveness and SEO

Qualifications Required

- Bachelor's or Master's degree in Computer Science, Information Technology, or related field
- Proficiency in React, Node.js (or Python FastAPI)
- Familiarity with OpenAI APIs and REST integrations
- Strong problem-solving and deployment skills

Fuel your Future with CogoUniverse

Join the team building one of the first real-world AI-driven freight booking platforms. You will master conversational interfaces, serverless deployment, OpenAI API integration, and next-gen logistics automation — giving you cutting-edge skills that are highly valuable globally.
