Who we are

At CogoUniverse, we are on a mission to revolutionize global trade by tackling the \$3.4 trillion Trade Knowledge and Execution Gap that disproportionately impacts small and medium businesses. We are developing a new category — a Global Trade Platform — that empowers businesses to identify and connect with the right trade partners, optimize shipping and logistics costs, and improve cash flow and cash management.

Recognized as an Asia-Pacific High-Growth Company by the Financial Times and ranked among the Top 100 Indian Growth Champion Companies by the Economic Times, CogoUniverse is in hypergrowth mode. We're on track to reach \$1 billion in revenue by summer.

Your Role at CogoUniverse

Your objective would be to enable and monitor GPT-personalized messaging across WhatsApp and email using 360Dialog/Kaleyra and AWS SES.

- Set up WhatsApp templates and SES integration
- Merge GPT outputs with dynamic template builder
- Monitor bounce, delivery, read, and engagement metrics

Success Metrics:

- 95% deliverability across both channels
- 3–5 WhatsApp journeys fully launched
- Automated webhook-based reply tracking

Qualifications Required

- WhatsApp APIs (Kaleyra, 360Dialog), AWS SES, email formatting (MJML)
- API automation and webhook parsing

Fuel your Future with CogoUniverse

- Operate real-world outbound messaging systems used by fast-growth companies
- Understand omnichannel delivery tactics at a technical level
- Become indispensable for SaaS marketing ops, CRM platforms, or AI startups
