

Prompt Engineering and Optimization Intern

Location: Singapore / Mumbai / Gurugram / Hybrid

Team: Growth Engine

Type: Internship

Who we are

At CogoUniverse, we are on a mission to revolutionize global trade by tackling the \$3.4 trillion Trade Knowledge and Execution Gap that disproportionately impacts small and medium businesses. We are developing a new category — a Global Trade Platform — that empowers businesses to identify and connect with the right trade partners, optimize shipping and logistics costs, and improve cash flow and cash management.

Recognized as an Asia-Pacific High-Growth Company by the Financial Times and ranked among the Top 100 Indian Growth Champion Companies by the Economic Times, CogoUniverse is in hypergrowth mode. We're on track to reach \$1 billion in revenue by summer.

Your Role at CogoUniverse

Your objective would be to craft high-conversion, context-aware GPT prompts for multi-channel messaging across email, WhatsApp, and voice agents.

- Design prompt templates for different stages (awareness to conversion)
- Create tone variants based on buyer profile and RFM logic
- Work with voice/email/WhatsApp agents to test and refine responses
- Track open/reply rate and improve prompt effectiveness

Success Metrics:

- 15%+ improvement in message engagement (open/reply rate)
- 100% coverage of journey stages with prompt flows
- <48h turnaround on new prompt variants per campaign

Qualifications Required

- Departments: Computer Science, Information Science, Cognitive Science, Linguistics
- Skills Good to Have: OpenAI API, prompt engineering, basic Python/Node.js
- Learnability: Should show curiosity about AI-human communication dynamics, quick prompt testing, iterative improvement

Fuel your Future with CogoUniverse

- Build expertise in one of the most in-demand future skills: conversational AI prompt design
- Own real-world outcomes driven by your prompt performance
- Shape how AI will autonomously drive revenue without manual intervention
